the [] She indicated that [] brother is eligible 25X1
for the draft and that his infirmed parents, who are unable to run their
farm without his assistance, have asked for Mr. Ashbrook's assistance in
attempting to obtain a draft deferment for him. Mrs. Hennessey said the
Congressman wondered if we had any suggestions or guidance to offer in
this connection. I advised Mrs. Hennessey that I would give no assurance
whatever on this but I would look into the matter and be in touch with her
within the next few days.

25X1 2. [] Jack Lundin, OSI, called and requested
a copy of the Joint Committee on Atomic Energy's classified portion
(Part I) of its study of the new production reactor at New Hanford. I
advised Lundin I would look into this and be in touch with him.

25X1 3. [] William Darden, on the Senate Armed
Services Committee staff, called and said that a newsmen from North
Carolina had asked him where Powers landed when he returned to the
U. S. Darden said if possible he would like to be helpful to this individual
but he did not know whether this information could be disclosed. I advised
Darden that inasmuch as the arrangements which were involved concerned
other departments and agencies, I suggested that this information not be
given to the press. Darden said he understood. He also asked the address
of Oliver Powers and this was given to him. Darden said Senator Byrd
wanted this information so he could write a letter to Powers' parents.

25X1 4. [] In connection with her inquiry concerning 25X1

might be given by the Congressman's office in their efforts to assist him in
obtaining a position with NAAEA. Mrs. Smith said she appreciated this sug-
gestion and would handle this matter in this fashion.
